Information & Guides to Assist in Your Planning Decisions

WE ARE NOT a camping, hunting or survivalist prepping supply company.

OUR VALUE: We bring a company designed to help you plan, prepare and resolve many life situations that may arise. Also, we help when you decide to follow recommended guidelines for various levels of emergency preparation from the federal, state and local governments or Red Cross type agencies. We consider the various other situations throughout life that we all may face.

DeMarca Design, Inc. attempts to provide whole solutions and products that may interconnect and provide a more integral and complete readiness plan to be more self-reliant. We have products & services that we believe bring you the quality of products & services selected through innovation, research, market share & availability and price-to-value as well as requests and feedback from various agencies and our customers.

As we grow, we intend to provide more products, services and resources to you and your loved ones. We welcome your suggestions and feedback to help us improve our service to you.

Some of our products or services also may assist with regular daily living situations and may also assist in emergency situations as well. These services will be displayed in our website.
